

RURAL BROADBAND SYMPOSIUM

HOSTED BY CONGRESSMAN CHRIS GIBSON

SEPTEMBER 29, 2011 – REGISTRATION OPENS 8:30 AM

QUEENSBURY HIGH SCHOOL

409 AVIATION ROAD • QUEENSBURY, NY 12804

Develop your strategy for expanding broadband in your community!

The purpose of the **Rural Broadband Symposium** is to bring together broadband providers, government officials, anchor institution representatives and civic leaders interested in the expansion of quality broadband service to un-served areas. There is not one solution to expanding broadband because each community and situation is different. This conference will provide each participant with the Congressman's Broadband Guide and the opportunity to speak with experts, service providers and leaders thereby helping attendees to assess their own unique situation and development of a customized action plan.

**Moderator – Peter Aust, President & CEO
Adirondack Regional Chamber of Commerce**

Panelists:

Government Leaders: 9:30 – 10:00 am	Government Workshop: 10:00 – 11:00 am	Case Studies: 11:00 am - 12:00 pm	Service Providers: 12:00 - 1:00 pm

Each recipient will receive a copy of Congressman Gibson's Rural Broadband Guide providing information and resources including a tool kit for the development of a customized strategy.

Who should attend the Rural Broadband Symposium? Just about anyone interested in bringing broadband to un-served areas:

- Business owners
- Educators
- Librarians
- Safety professionals
- Health Care professionals
- Home owners

As I have travelled the 137 towns throughout the 20th Congressional District, much of which is rural, I have heard from a number of people who have asked for help bringing broadband service to un-served areas. Broadband is an essential tool in the 21st Century for all walks of life. This symposium has been created to bring leaders together for a productive and positive discussion to try and find solutions.

Congressman Chris Gibson
